WE ARE RECRUITING!

Postdoctoral Position in Theoretical Quantum Many-Body Physics

The **computational quantum many-body physics group** at the University of Bonn offers a

Postdoctoral Position (E13)

in the area of condensed matter theory, to work with David Luitz. The research background of successful candidates can range from computational approaches to quantum many-body systems, nonequilibrium phenomena in quantum many-body systems, ultracold atomic gases to quantum computation.

The position will be embedded in the stimulating research environment of the [Cluster of Excellence ML4Q](#) and within the [University of Bonn](#).

The position has a flexible starting date and is offered initially for two years with the possibility for an extension to a third year. Complete applications should include a cover letter, a full academic curriculum vitae, and a brief research statement and should be submitted as a single PDF file to [Ilona Vorobjova <ivorobjo@uni-bonn.de>](mailto:ivorobjo@uni-bonn.de). Please also arrange for two confidential letters of reference to be sent directly to <ivorobjo@uni-bonn.de>.

We encourage candidates to submit their applications by March 12, 2022 for full consideration but will consider later applications until this position is filled.
