ML⁴Q FELLOWSHIP
CALL 2024

Foto: Simon Wegener

Interested in joining our Cluster of Excellence Matter and Light for Quantum Computing (ML4Q)?

Join our vibrant international research environment and collaborative research effort to develop new quantum computing and networking architectures based on fundamental research in solid-state physics, quantum optics, and quantum information science!

We offer fellowships for excellent postdocs interested in performing research, and hosted by one of our cluster's groups in Aachen, Bonn, Cologne, Jülich and Düsseldorf.

The 2 years funding covers your own position, and includes generous budget for travel and consumables, as well as career development support tailored to your individual needs.

Interested candidates are invited to submit a short application to the ML4Q Office by by **_March 12th 2024_**.

More information on requirements and the application procedure can be found on the website.
